| 15th, Friday | Morning message - "Kites fly higher against the wind" The way kites fly against the wind is amazing, they don't fly with the wind. Though the turbulence in the air forces the kite to lose track and move here and there, the kite still manages to manoeuvre itself using aerodynamic skills. When circumstances are against, the general trend is to lose hope and surrender. This is when one should take inspiration from these kites. | 16th, Monday | Morning message - "Simple Living & High Thinking" The current generation feels that elaborate living is more conducive than simple living. But in the long run, it leads to deviation and distracts one from the goal. Simplicity is probably the greatest virtue, In this atomic era, the harmony between the ideals of plain living and high thinking have lost their value. As is well-known, Mahatma Gandhi was always dressed in a dhoti and still moved the entire world with his dynamic thinking. Similarly, APJ Abdul Kalam, Abraham Lincoln, Lal Bahadur Shastri, and our Prime Minister Narendra Modi have proved that simple living is a better way of achieving greatness. | 7th, Friday | Morning message - "Not all those who wander are lost" In the pursuit of success, we are often compelled to follow the path others have taken. Those who deviate from this path are often considered to be lost and pulled back into it. However, it is often seen that great leaders are those who make their own paths, those who wander. Wandering means exploration: the single most important human quality that propels research and development and sets us apart. Exploration – both internal and external – is, therefore, an extremely essential part of the journey that is our life. Thought of the day and news Pranayam by Malti Ma'am | Organiser | Class XII C |

| 14th, Friday | <p>Morning message "Problems are not stop signs, they are guidelines." Life is not a bed of roses. In order to achieve success, we must have the courage to face & overcome the difficulties that come along our way. Wonderful things are possible if we take our problem and turn it into a challenge. A challenge means to keep going ahead until we find a solution. Any problem where we lose faith in ourselves and stop trying, becomes a dead end...a stop sign. But as soon as we look for more ways to solve our problem, by improvising the areas required, it becomes a guideline...opening doors for new opportunities.</p> <p>Thought of the day and news Pranayam by Malti Ma'am</p> | Organiser | Class VIII C |
